HOLOGIC

THE GLOBAL CONGRESS ON
HYSTEROSCOPY.
BARCELONA 2019

Pre-Congress Course
Tuesday, April 30, 2019

Parc Sanitari Pere Virgili
Hospital Universitari de la Vall d'Hebron

Course outline and objectives

Endoscopic surgery has become an integral part of gynecology surgery. Procedures like laparoscopy and hysteroscopy are now on demand and spread around the world. The hysteroscopic workshop, organized by Vall d'Hebron Hospital, is a course for specialists in obstetrics and gynecology.

This course encompasses to fulfill and learn the surgical indications, techniques and complications of office and surgical hysteroscopy. It has been chosen 20 surgical procedures based on the most common clinical situations, and the participants will discuss them inside the conference room.
